

Community Integrator™

For non-profit organizations that need a flexible and affordable website, the **Organization Edition** is a website product that delivers a *dynamic information system* where you can create and maintain your website information through a secure online easy-to-learn interface.

Unlike traditional websites that can be expensive and take weeks to deliver, the **Organization Edition** is implemented quickly for a low monthly rate.

Easy to learn.

Easy to maintain.

Easily affordable.

Key Features

- **Donation Module** provides non-profit organizations with an ability to create donation categories and funds for online contributions.
 - Donation Funds with designated goals
 - Ability to print and email donation reports
 - Ability to accept check or credit card payments
- **About Module** is used to describe your organization and welcomes web visitors.
- **Gallery Module** is used to upload photos of organization events and share success stories.
- **Contact Module** captures comments, questions and feedback from site visitors.
- **Events Module** displays date, time, location and description of your organization events and supports online registrations by check or credit card.
- **Links Module** provides quick access to important resources.
- **News Module** keeps visitors up-to-date with the latest news and information.
- **Newsletter Module** allows you to email monthly updates and reports to keep members informed.
- **Custom Page Module** provides a built-in online word processor for creating web pages of information that can be organized by categories.

Organization Benefits

- Organizations see their membership increase through up-to-date online information.
- Organizations can raise needed funds through online donations and contributions.
- Organizations see greater turnout at events and can register people in advance for upcoming events.
- Custom Design using your logo and slogan brings out the character of your organization.

Additional Benefits

- Your site can be installed and operational with your custom design within a week.
- Organization information can be maintained in a matter of minutes – no special skills.
- Information can be entered in advance and activated later to display on website.
- Web hosting and technical support is included.
